8+ Years	IIT Delhi	750+	600+
HANDS-ON EXPERIENCE	CENTRAL HPC IMPLEMENTED	ENTERPRISE SYSTEMS SCALED	VIRTUAL MACHINES & DR

EXECUTIVE PROFILE

Accomplished Senior Infrastructure and High-Performance Computing (HPC) Engineer with **8+ years** of hands-on expertise architecting, deploying, and maintaining mission-critical server environments, Linux supercomputing clusters, enterprise virtualization, and business-continuity disaster recovery. Proven track record deploying complex Slurm clusters for institutions like **IIT Delhi**, architecting autonomous power-fail telemetry, and operating high-availability data centers.

PROFESSIONAL EXPERIENCE

Senior Engineer — Laya Tech Pvt Ltd
2023 – Present | Chennai, India

- **IIT Delhi HPC Deployment:** Architected and commissioned master and compute nodes running AlmaLinux with Slurm Workload Manager, OpenMPI, and GPU/eGPU clusters.
- **Autonomous Power Resilience:** Engineered custom automated UPS graceful shutdown orchestration monitoring SNMP battery runtimes with zero-data-loss node shutdown.
- **OEM Server Operations:** Administered Dell PowerEdge, HPE ProLiant, and Supermicro servers with hardware RAID, iDRAC/iLO out-of-band management, and automated provisioning.
- **Enterprise Storage:** Implemented distributed NFS, Lustre, Synology High-Availability, and QNAP storage for multi-terabyte dataset parallel processing.

System Engineer — CMS IT Services Pvt Ltd
2022 – 2023 | Chennai, India

- **TASMAC DC & Trichy DR:** Orchestrated disaster recovery site replication utilizing VMware Site Recovery Manager (SRM), SAN switch fabrics, and automated failover drills.
- **Virtualization Management:** Administered 600+ enterprise virtual machines across clustered VMware vSphere/ESXi and vCenter with zero-downtime vMotion migrations.
- **Backup & Security:** Deployed Veeam Backup & Replication across multi-site architectures, maintaining RPO < 15 min and RTO < 1 hour.

System Engineer — Sanctum Technology Pvt Ltd
2020 – 2022 | Chennai, India

- Provided Level-2/3 warranty technical diagnosis and hardware replacement for enterprise Lenovo server motherboards, controllers, and backplanes.
- Delivered high-availability support for commercial datacenters ensuring strict SLA compliance.

System Engineer — Proteck Machinery Pvt Ltd
2017 – 2020 | Chennai, India

- Scaled and maintained daily enterprise IT operations across 750+ enterprise systems, core switches, firewalls, and internal services.

THINGS I'VE MADE (KEY PROJECTS)

IIT Delhi HPC Supercomputing Cluster — HPC · Supercomputing

HPC & COMPUTE

Slurm Manager | AlmaLinux | RHEL / CentOS | OpenMPI | InfiniBand | GPU / CUDA | Lustre / NFS

VIRTUALIZATION & DR

VMware ESXi | vCenter Server | VMware SRM | Veeam Backup | Proxmox VE | vMotion / HA

HARDWARE & STORAGE

Dell PowerEdge | HPE ProLiant | Supermicro | iDRAC / iLO | Hardware RAID | SAN / NAS | Synology HA

CLOUD & DEVOPS

AWS Cloud | Azure | Docker | Kubernetes | Terraform | IPsec VPN

SCRIPTING & MONITORING

Bash Scripting | PowerShell | Python | Zabbix | Prometheus | Grafana

EDUCATION

B.E. Computer Science & Engineering
Bharathidasan Engineering College
Graduated 2017

Diploma in Computer Science & Eng.

Engineered and deployed AlmaLinux master/compute nodes with Slurm Workload Manager, OpenMPI, high-speed NFS, and GPU acceleration for scientific research.

Tech: AlmaLinux, Slurm, OpenMPI, GPU/PCIe, InfiniBand, NFS

TASMAC DC & Trichy DR Production Resilience

Disaster Recovery · VMware SRM

Engineered mission-critical disaster recovery between Chennai DC and Trichy DR with VMware SRM, SAN replication, and automated failover testing (RPO < 15m).

Tech: VMware SRM, vCenter 7/8, SAN Switches, Veeam CDP, Dell PowerEdge

BARC & Indian Army Defense Infrastructure

Defense · Zero-Trust Security

Deployed and hardened air-gapped enterprise server infrastructure for Bhabha Atomic Research Centre (BARC) and Indian Army with K7 Enterprise offline console.

Tech: Air-Gapped Infrastructure, K7 Enterprise, Hardened Linux, Offline Compliance

Autonomous HPC UPS Graceful Shutdown

Automation · Telemetry

Power-fail orchestration evicting Slurm compute jobs at 30% battery, powering down nodes safely at 20%, with instant SMTP/SMS telemetry alerts.

Tech: Bash, PowerShell, AlmaLinux, SNMP, SMTP Telemetry

Guru Raagavindra Polytechnic College

Completed 2014
